## Dispensing Furnishings Now Available in Renewable Bamboo

(Paradise, CA) Fashion Optical Displays offers beautifully crafted and durable bamboo displays for its Ovation collection of contemporary dispensing furnishings.

For over thirty years, Fashion Optical Displays' cabinetmakers have created furnishings from sustainable, plantation-grown hardwoods. Fashion recently added bamboo, which is one of the earth's greatest renewable resources.

The new bamboo Ovation furnishings feature optional locking frame displays and dispensing stations with soft curved lines that help create a light, spacious dispensing environment. The Ovation's credenza provides convenient storage for frames and supplies.

Fashion Optical Displays is proud to utilize bamboo sources that are certified by the American non-profit Forest Stewardship Council (FSC). The FSC sets standards for sustainable forest management and certifies that hardwoods and other products are harvested from certified, well-managed forests.

For more information about the Ovation collection crafted in bamboo or to request additional product or design information, log on to [www.fashionoptical.com](http://www.fashionoptical.com) or call 800/824-4106, FAX 530/877-2013 or write to Fashion Optical Displays, P.O. Box 159, Paradise, CA., 95967.
